MOHAMED TAHA

FRONT-END DEVELOPER

ABOUT ME

Computer Engineering student (2nd Year) and Front-End Developer with hands-on experience delivering freelance web projects and completing professional training at ICT HUB. Skilled in building responsive, user-focused web applications using HTML, CSS, JavaScript, React.js, Tailwind CSS, Bootstrap, Git, and REST APIs. Experienced in leveraging AI-powered development tools such as ChatGPT, GitHub Copilot, Claude, and other AI assistants to accelerate development, improve code quality, debug applications, and enhance productivity. Passionate about writing clean, maintainable code, solving complex problems, and continuously learning modern web technologies. Seeking a Front-End Development internship where I can contribute to real-world projects while growing as a software engineer.

EXPERIENCE

Front-End Development Trainer ICT HUB | 2026

- * Completed practical training in modern front-end development technologies and best practices.
- * Built responsive web pages using HTML, CSS, JavaScript, Bootstrap, and React.js.
- * Worked with Git and GitHub for version control and collaborative development.
- * Collaborated with developers on real-world projects using Agile workflows.

Front-End Developer (Freelance) Self-Employed | 2025 – Present

- * Developed responsive websites and web applications for clients across various industries.
- * Converted Figma and Adobe XD designs into modern, pixel-perfect user interfaces.
- * Built reusable React components and responsive layouts using Tailwind CSS and Bootstrap.
- * Optimized website performance, accessibility, and cross-browser compatibility.
- * Collaborated directly with clients to understand requirements and deliver projects on schedule.
